Companion Rehabilitation Clinic

# Welcome to the Companion Rehabilitation Clinic

At **CRC**, caring and experienced Certified Canine Rehabilitation Practitioners (CCRP) provide cats and dogs physical therapy and rehabilitation. We tailor our care to your pets needs so they regain independence and continue to enjoy the activities they love. We believe that canine Physical Therapy and Rehabilitation is an integral part of the medical healing process.

We look forward to your visit!

*"We were especially impressed with the care and attention CRC gave us in helping our dog"*

## Looking for a Rehabilitation Clinic for your Pet?

The goal of the Companion Rehabilitation Clinic (**CRC**) is to provide comprehensive rehabilitation treatment for animals after surgery (Orthopedic and Neurological). We also care for animals with chronic conditions such as Cancer, Obesity or other health problems that come with age. **CRC** offers conservative therapy approaches for pets when surgery is not recommended, as well as conditioning. Educating owner's on their pets condition is a priority for us. We are highly dedicated to partnering with you to help your pet reach optimal health.

### Our Facility

Immerse yourself and your pet in nature when visiting us. Our facility is in the heart of the Dundas Valley Conservation Area, ideal for tranquil recovery and healing of your beloved pet. Here pets and owners can reconnect by enjoying the nearby trails, including the Bruce Trail and Sherman Falls, just steps away.

We are minutes from the Lincoln Alexander Parkway (LINC) and HWY403 (free parking available).

## Let us introduce ourselves!

We are staffed by trained Certified Canine Rehabilitation Practitioners who have extensive experience.

**Sabry Belhouchet (CCRP, Owner and Operator)** has been working with animals for over 18 years. Most recently he completed his CCRP and canine rehabilitation training at the University of Tennessee. Since 2009 he has been working in the animal rehabilitation field and has helped many pets with different physical ailments. Sabry opened **CRC** after identifying a need for canine and feline rehabilitation in the Hamilton-Wentworth/Niagara Region.
