Companion Rehabilitation Clinic

Welcome to the Companion Rehabilitation Clinic

At **CRC**, caring and experienced Certified Canine Rehabilitation Practitioners (CCRP) provide cats and dogs physical therapy and rehabilitation. We tailor care to your pet's needs so they regain independence and continue to enjoy the activities they love. We believe that Physical Therapy and Rehabilitation are an integral part of the medical healing process.

We look forward to your visit!

Looking for a Rehabilitation Clinic for your Pet?

The goal of the Companion Rehabilitation Clinic (**CRC**) is to provide comprehensive rehabilitation treatment for your pet after surgery (Orthopedic and Neurological). We also care for animals with chronic conditions such as Cancer, Obesity or other health problems that come with age. **CRC** offers conservative therapy approaches for pets when surgery is not recommended. We are dedicated to helping your pet return to optimal health.

Let us introduce ourselves!

Sabry Belhouchet (CCRP, Owner and Operator) has been working with animals for over 18 years. Sabry completed his CCRP and canine rehabilitation training at the University of Tennessee. Since 2009, he has been working in the animal rehabilitation field and has helped many pets with different physical challenges. Sabry opened **CRC** after identifying a need for canine and feline rehabilitation in the Hamilton-Wentworth/Niagara Region.
